DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The reply filed on June 19, 2007 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s). None of the amended or new claims reads on the elected invention, a composition comprising an effective amount of a Xenorhabdus A protein, a Photorhabdus B protein and a Photorhabdus C protein, in which the A protein is SEQ ID NO: 34. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rosanne Kosson whose telephone number is 571-272-2923. The examiner can normally be reached on Monday-Friday, 8:30-6:00, alternate Mondays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapu Achutamurthy can be reached on 571-272-0928. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.

Examiner-Initiated Interview Summary	Application No.	Applicant(s)	
	10/754,115	HEY ET AL.	
	Examiner	Art Unit	
	Rosanne Kosson	1652	

All Participants:

Status of Application: rejected

(1) Rosanne Kosson.

(3) _____

(2) Jay Sanders, Applicants' representatives.

(4) _____

Date of Interview: _____

Time: 2 pm

Type of Interview:

- ☒ Telephonic
☐ Video Conference
☐ Personal (Copy given to: ☐ Applicant ☐ Applicant's representative)

Exhibit Shown or Demonstrated: ☐ Yes ☒ No
 If Yes, provide a brief description:

Part I.

Rejection(s) discussed:

Claims discussed:
those pending

Prior art documents discussed:
none

Part II.

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:
See Continuation Sheet

Part III.

- ☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.
☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

 (Examiner/SPE Signature)

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: Applicants' representative was informed that, in the amended claim set filed on 6/19/07, none of the claims read on the elected invention- an insecticidal composition of a homotetramer of an A protein (recited in the claims as an effective amount of an A protein), a B protein and a C protein in which the A protein is SEQ ID NO: 34 (from *Xenorhabdus*), the B protein is one definite and specific protein from a set of *Photorhabdus* B proteins that enhance the insecticidal activity of SEQ ID NO: 34, and the C protein is one definite and specific protein from a set of *Photorhabdus* C proteins that enhance the insecticidal activity of SEQ ID NO: 34. In addition to reciting non-elected sequences, the "wherein" clauses change the meaning of the claims, because they recite that when B is from *Xenorhabdus*, C is from *Photorhabdus* and visa versa. Applicants' representative was advised that he would receive a notice of incomplete response. Applicants' representative will file an amended claim set in response to this notice..
